

MSCA-RISE

Marie-Skłodowska Curie Actions *Research and Innovation Staff Exchange*

Jakub Zeman (Research Office MU)
17.9.2019

Funding under IMPROVE (LTI19007) project; programme INTER-EXCELLENCE: INTER-INFORM (MEYS)

**WHY
SHOULD
WE
APPLY...?**

HIGH SUCCESS RATES

A single shallow reason to apply for MSCA-RISE

PANELS	CHE	ECO	ENG	ENV	LIF	MAT	PHY	SOC	TOTAL
N. of proposals per Panel	31	12	90	44	44	8	28	48	305
N. of Above threshold Proposals per Panel	27	7	68	22	24	7	22	37	214
Number of successful proposals	9	3	27	9	7	2	7	9	73
Success rate in panels and overall	29%	25%	30%	20%	16%	25%	25%	19%	24%
% of above threshold projects	87%	58%	76%	50%	58%	88%	79%	77%	

- The overall success rate in **2018** was **26.5%**;
- The SR in some panels tend to decrease, e.g. **Life Science** panel: 2016 – 33%, in 2017 – 25%; 2018 – 21%)

Panels: Chemistry (CHE); Economic Sciences (ECO), Information Science and Engineering (ENG); Environment and Geosciences (ENV); Life Sciences (LIF); Mathematics (MAT), Physics (PHY) and Social Sciences and Humanities (SOC).

(ENTRY) EXPERIENCE & DIVERSE BENEFITS

- „Mild“ introduction to the **Coordinator’s role** – (probably) the easiest type of international H2020 **consortium** project
- Strengthening of your **international network** and **visibility**
- Potential to establish/boost **novel lines** of your research
- Participation in international grants = an important aspect of **evaluation** and „**institutional**“ **budgets/funding**

SUPPORT OF MU *RESEARCH OFFICE*

- We have supported preparation of **7** proposals (2 Neuroscience, 2 Structural Biology, 1 Molecular Medicine, 2 Environment)
- **5** proposals succeeded in the competition, i.e. **SR = 71%**

-
- CEITEC was a partner in the first RISE obtained, and **coordinates** other **3**
 - RECETOX as a partner – **2** proposals submitted (Environmental and Geo-Sciences), **1** funded

MSCA-RISE projects at **MU** *CEITEC*

MICROBRADAM

2015

- **Martin Bareš** – as a partner

Coordinator Dr. Federico Giove – **Centro Fermi**, Italy

US partner – CMRR - **Center for Magnetic Resonance**, Minneapolis

Budget

- **MU: 87K EUR**
- **FNUSA: 87K EUR**

MSCA-RISE projects at MU FI

Transforming Intangible Folkloric Performing Arts
into Tangible Choreographic Digital Objects

Terpsichore

2015

- **Assoc. prof. Liarokapis Fotios – as a partner**

Non-academic partners: **7 Reasons Medien GmbH; MeltisBaltis R&D Innovation Management**

Terpsichore aims to study, analyse, design, research, train, implement and validate an innovative framework for affordable digitization, modelling, archiving, e-preservation and presentation of ICH content related to folk dances, in a wide range of users (dance professionals, dance teachers, creative industries and general public)

Budget:

- **MU: 130K EUR**

2016

- **Irena Rektorová – coordinator**

US partner: **University of Arizona**

The first coordinated research H2020-RISE in the Czech Republic
Rector's Award (2017) – Extraordinary International Grant Competition Results

Budget

- **MU: 306K EUR**

About project

The project will employ novel behavioral paradigms and state-of-the-art imaging techniques to

- identify neural underpinnings of language, speech and cognitive functions in patient groups (stroke, Parkinson's disease, dementia) across three languages (Czech, English, Hungarian).
- unravel the therapeutic potential of NIBS (non-invasive brain stimulation) by targeting and

WHAT

IS

IT...?

Types of MSCA

Marie Skłodowska-Curie Actions

ITN Innovative Training Networks

What does it offer?

High-quality research training delivered through international and interdisciplinary networks, industrial doctorates or joint doctorates

Who applies?

International networks of research organisations from the academic and non-academic sectors

Who is funded?

Researchers at doctoral level (less than four years of full-time research experience and no doctoral degree)

IF Individual Fellowships

What does it offer?

Opportunities to work on personal research projects by moving between countries and possibly sectors to acquire new skills

Who applies?

Individual researchers together with the host organisation

Who is funded?

Postdoctoral researchers

RISE Research and Innovation Staff Exchange

What does it offer?

The exchange of staff members involved in research and innovation to develop sustainable collaborative projects and the transfer of knowledge

Who applies?

International networks of research organisations from the academic and non-academic sectors

Who is funded?

Researchers, technical, administrative and managerial staff of any nationality and at all career levels

COFUND Co-Funding of Regional, National and International Programmes

What does it offer?

Regional, national or international programmes to foster excellence in researchers' training, mobility and career development

Who applies?

Organisations funding or managing doctoral programmes or fellowship programmes

Who is funded?

Researchers at doctoral and postdoctoral level

Objectives of MSCA-RISE

- **Partnership**
 - Academic and non-academic organisations
 - Europe and the rest of the world
- **Staff exchanges**
 - R&I Projects implemented through staff exchange
 - Support of both academic/non-academic staff exchanges (see also eligibility)
- **Transfer of knowledge**
 - International and inter-sector transfer of knowledge
 - Sharing of ideas and of R&I culture

Other main features of **MSCA-RISE**

- **Bottom-up research topics!**
- Built on **joint research** and innovation activities
- **Mobility** is the key requirement
- Implemented through **secondments** (1-12 months long)
- Project max size: **540 person month** of seconded staff
- Project max duration: **48 months**
- All research areas, 8 evaluation panels
- **Annual calls** – if not successful, you can re-apply next year

Expected impacts of MSCA-RISE

- **At staff member level**
 - Increased set of skills, both research-related and transferable ones, leading to improved employability and career prospects both in and outside academia
 - Increase in higher impact R&I output, more knowledge and ideas converted into products and services
 - Greater contribution to the knowledge-based economy and society
- **At organisation level**
 - Enhanced cooperation and transfer of knowledge between sectors and disciplines
 - Strengthening of international and inter-sectoral collaborative networks
 - Boosting of R&I capacity among participating organisations
- **At system level**
 - Increase in international, interdisciplinary and inter-sectoral mobility of researchers in Europe
 - Strengthening of Europe's human capital base in R&I
 - Increase in Europe's attractiveness as a leading destination for R&I
 - Better quality R&I contributing to Europe's competitiveness and growth

A typical **RISE** project

Eligible exchanges of staff

		SENDING (Seconding Staff <u>from</u> Organisation)		
		Academic organisation in MS/AC (1)	Non-academic organisation in MS/AC (2)	Organisation in TC
HOSTING (Receiving seconded staff)	Academic organisation in MS/AC (1)			
	Non-academic organisation in MS/AC (2)			
	Organisation in TC			

Eligible organisations

Academic sector

- ✓ public /private higher education establishments awarding academic degrees
- ✓ public /private non-profit research organisations whose primary mission is to pursue research
- ✓ international European interest organisations (e.g. CERN, EMBL)

Non-academic sector

- ✓ any entity not included in the academic sector:
- ✓ e.g. large companies, SMEs, NGOs, museums, hospitals
- ✓ international organisations (e.g. UN, WHO)

Standardised legal validation of entities is applied to determine the category of each beneficiary

- Practically – that means looking up organisation's PIC (Participant Identification Code) and see the status in the basic ID information of the organisation
- **Research Office** can check it up for you!

Countries **eligible** for funding

- All **EU member states** (EU MS)
- **Associated countries** (AC), e.g. Norway, Israel, Bosnia and Hercegovina... etc:
http://ec.europa.eu/research/participants/data/ref/h2020/grants_manual/hi/3cpart/h2020-hi-list-ac_en.pdf
- Some of the Third countries (TC), generally the **developing TCs**, e.g. Mali, Sudan, Burkina Faso...Argentina... etc.:
https://ec.europa.eu/research/participants/data/ref/h2020/other/wp/2016-2017/annexes/h2020-wp1617-annex-ga_en.pdf
- **TCs ineligible for funding**, but **eligible for participation** include specifically:
Australia, Brazil, Canada , China, India, Japan, Mexico, New Zealand, Republic of Korea, Russia, United States

Eligible staff

- Basically – all are eligible
- Specifically:
 - ESR (Early stage researchers) = PhD students
 - ER (experienced researchers) = postdocs or four-years in research (and more advanced researchers)
 - Technicians
 - Administrative staff
 - Managerial staff
- Minimum duration of activity in research at **least one month** (full-time equivalent)
- Full-time employment not relevant in case of PhD students

Eligible costs - Staff member unit costs

2,100

- Is a top-up allowance to be fully used to support travel, accommodation and subsistence costs for the staff member during the secondment.
- The Staff member unit cost contribution can be managed centrally to pay for the costs linked to the individual staff member on secondment (e.g. moving costs, accommodation, etc.) or paid directly to the staff member or a combination of the two approaches.
- On request, the Beneficiaries must be able to show that the total amount (2,100 EUR) was fully used for the direct benefit of the seconded staff member.

⚠ Important! The salary of the seconded staff members or any other type of remuneration is not covered by the EU contribution. Therefore, the Beneficiaries and TC Partner organisations are expected to continue paying the staff member's salary (or any other type of remuneration) during their stay abroad.

Eligible costs – Institutional unit costs

(RTN costs + Management and indirect costs)

Institutional unit cost	Research, training and networking costs	1,800	<ul style="list-style-type: none"> Cover the costs of R&I related activities of the action such as purchasing of consumables, laboratory costs, participation to conferences, workshops, coordination and review meetings and networking activities.
	Management and indirect costs	700	<ul style="list-style-type: none"> Cover all general costs connected with the organisation and implementation of the secondments (administrative and financial management, logistics, ethics, human resources, legal advice, documentation, etc.). <p>⚠ Important! Note that <u>any secondments</u> planned to do "purely management activities" (e.g. project coordination meetings, report drafting, etc.) will <u>not be eligible</u> for funding under WP dedicated to these types of tasks.</p>

Eligible costs - EXAMPLE

- Consider you have planned 5 secondments, in total 36 seconded person-months
- The automatically calculated budget goes like this: $36 * (2,100 + 1,800 + 700) = \text{EUR } 165,600$

Table A3.3 – Summary of secondments per EU Beneficiary

Participant Number	Organisation Short Name	Country	Academic	Number of secondments	Person-months	Estimated budget support (whole duration of the project)				Requested EU contribution/€
						Staff member costs	Research, training and networking costs	Management and indirect costs	Total	
1	MU	CZ	yes	5	36	75600,00	64800,00	25200,00	165600,00	165600,00
2	BIOVENDOR	CZ	no	8	24	30400,00	43200,00	16800,00	110400,00	110400,00

DOCUMENT 1 (MAX 32 PAGES)

START PAGE (MAX 1 page)

1 TABLE of CONTENT (MAX 1 page)

START PAGE COUNT (MAX 30 PAGES SECTIONS 2-4)

2. EXCELLENCE (starting page 3)

3. IMPACT

4. QUALITY AND EFFICIENCY OF THE IMPLEMENTATION

STOP PAGE COUNT (MAX 30 PAGES SECTIONS 2-4)

DOCUMENT 2 (NO OVERALL PAGE LIMIT APPLIED)

5. REFERENCES

6. CAPACITIES OF THE PARTICIPATING ORGANISATIONS

7. ETHICS ASPECTS

8. LETTERS OF COMMITMENT OF TC PARTNER ORGANISATIONS

END PAGE (1 page)

Please note that:

- Applicants must ensure that document 1 does not exceed the total page limit of maximum 32 pages (1 start page + 1 table of content page + 30 pages for Sections 2-4).
- *No reference to the outcome of previous evaluations of this or any similar proposal should be included in the text. The expert evaluators will be strictly instructed to disregard any such references*

RISE evaluation criteria

RISE - Marie Skłodowska-Curie Research and Innovation Staff Exchange		
Excellence	Impact	Quality and efficiency of the implementation
Quality and credibility of the research/innovation project; level of novelty and appropriate consideration of inter/multidisciplinary, intersectoral and gender aspects	Enhancing the potential and future career prospects of the staff members	Coherence and effectiveness of the work plan, including appropriateness of the allocation of tasks and resources
Quality and appropriateness of knowledge sharing among the participating organisations in light of the research and innovation objectives.	Developing new and lasting research collaborations, achieving transfer of knowledge between participating organisations and contribution to improving research and innovation potential at the European and global levels	Appropriateness of the management structures and procedures, including quality management and risk management
Quality of the proposed interaction between the participating organisations	Quality of the proposed measures to exploit and disseminate the project results	Appropriateness of the institutional environment (hosting arrangements, infrastructure)
	Quality of the proposed measures to communicate the project activities to different target audiences	Competences, experience and complementarity of the participating organisations and their commitment to the project
50%	30%	20%
Weighting		
1	2	3
Priority in case of ex aequo		

RISE Consortium – formal roles

	Beneficiary (MS/AC)	Unfunded partner Organisation (TCs)
Signs Grant Agreement (GA)		
Responsible for the execution & implementation of the project		
Claims costs to the EU		
Trains/hosts seconded researchers		
Signs Letter of Commitment for GA		
Signs Partnership (Consortium) Agreement		

MSCA-RISE – pros & cons

- Pros – all of the asset mentioned above, such as:
 - International funding and related knowledge and experience
 - Development of international networks
 - Transfer of knowledge and potential to attract and „try out“ talents from abroad
 - Development of your staff and their career perspectives
 - Boosting your research output, and perhaps prepare follow-up research projects
- Cons
 - Not much money to cover RTN (research) costs – you should have some other complementary grant(s)
 - Your staff will be gone for some months, which will have an impact on the operation of your lab
 - There is no specific budget to cover **Open Access** publication fees (must be cover from RTN cost)
 - The seconded employee has to work **full-time** at the hosting institution

Support of Research Office

What we offer

- Primary consultation of your consortium and **expected project benefits** and **knowledge transfer**
- A half-day / full-day workshop on the **overall aim** and **specific objectives** as well as overall **structure of the proposal**
- Ideas and approaches regarding the **dissemination plan**
- Expert project management **advice on preparing the implementation** part
- Consultation of your texts, **editorial revisions & tips**
- A detailed and **agreed preparation plan** to avoid stress
- Major part of **communication with the partners**, including all of the „formal“ and technical stuff (ID information, tables, numbers, forms, ...)

MSCA-RISE/ITN Implementation

Collecting & sharing experience

Financial Management of Marie Skłodowska-Curie actions (MSCA) in Horizon 2020
– [The practitioner's perspective](#) (November 2017)

- The document is a result of collaborative effort of a number of administrators with comprehensive experience with MSCA
- It can provide some basic answers on regular and frequent issues
- We should try to collect more of the existing experience and information – suggestions?
- NCPs, international partners (Utrecht Network, EU-Life, Alliance4Life, running consortia...)

MSCA-RISE/ITN Implementation

Collecting & sharing experience

Initiative of the RMU's Research Office

- Setting up a **group of research support staff** sharing information and best practice
- Categorisation of specific areas and issues
- Format of FAQ or brief „case studies“ (in dedicated folders)
- Accessible via a *OneDrive* file shared by MSCA-involved researchers and administrators
- More „invasive“ methods - a mailing list; or just setting notification upon *OneDrive* folder updates
- Open to broader national research community (as one of the IMPROVE project's instruments)

MSCA-RISE/ITN Implementation

Collecting & sharing experience

Examples of categories / issues

Some suggestions on „RISE/ITN-related“ topics/issues:

- Continuous reporting in the F&TO Portal
- Budget re-allocations and money transfers
- Non-EU Beneficiaries and Partners without funding
- Documents to be kept (for audit) related to transfers, secondments, ...
- Secondments implementation (visa, insurance, living costs, evidence of working (full)-time, ...)
- Agreements – GA, CA, PA
- Meetings and events management – tips and processes
- Dissemination and public outreach – good practice, cases studies, tips and effect/“gains“
- „Encountered issues that could have been prevented/anticipated“ = Lessons in risks planning & management
-
